Motta Competition Policy

'Massimo Motta has filled a major lacuna by providing a comprehensive treatment of the modern theory of antitrust/competition policy. He masterfully blends theory and E.U. cases to produce a treatise that works at both the undergraduate and graduate levels, serves as a valuable resource for working economists, and is readable to many non-economists.

Prof Massimo Motta - Google Sites

Sound competition policy is all the more important in moments of crisis to ensure that the crisis is solved and the subsequent economic recovery, as fast and sustained as possible. This requires competition authorities to act today to help the overall policy response of governments to deal with this crisis in a sustainable way.

Massimo Motta | Barcelona Graduate School of Economics

A review of the theoretical research on unlawful collusion, focusing on the impact and optimal design of competition law and enforcement. Collusion occurs when firms in a market coordinate their behavior for the purpose of producing a supracompetitive outcome. The literature on the theory of collusion is deep and broad but most of that work does not take account of the possible illegality of ...
