Why National Standards Won't Fix American Education ...

Educational standards are the learning goals for what students should know and be able to do at each grade level. Education standards, like Common Core are not a curriculum. Local communities and educators choose their own curriculum, which is a detailed plan for day to day teaching. In other words, the Common Core is what students need to know and be able to do, and curriculum is how students will learn it.

The New Definition of Standards in American Education ...

National Standards Are Not Federal Standards. There are no mandated national standards for any subject in Grades K-12 in the United States. The responsibility for precollege education is vested constitutionally with state and local authorities. The Federal Government contributes approximately 8% of the total budget for K-12 education.
