### **Neuropsychology For The Attorney [EPUB]**

Neuropsychology provides a significant benefit to patients with head injury. Neuropsychologists are increasingly being asked to participate in litigation because head injury litigation is not clear-cut; it requires the involvement of experts in the field who can explain and educate juries about the subtleties of head injury.

## **Dr. Kevin O'Brien | Arizona Neuropsychology, P.C.**

The neuropsychologist can opine whether a TBI survivor can live independently, return to work or continue school. A neuropsychological evaluation is an asset for personal injury attorneys in litigation when a TBI is alleged. This is especially true for cases involving concussion and mild brain injury where the effects of trauma are subtle.

## **Neuropsychological Testing | Traumatic Brain Injury | TBI**

Despite this, the science of applied neuropsychology has not offered guidelines concerning attorney-client interactions relevant to test security. For that reason, maintaining appropriate and requisite practices to protect test security in medicolegal cases is not always understood and followed by attorneys.
