Out of the shadows : contributions of twentieth-century ...

Out from the Shadows showcases the work of 18 analytical feminists from a variety of traditional areas of philosophy: social and political philosophy, normative ethics, virtue theory, metaethics, philosophy of language, metaphysics, epistemology, and philosophy of science. The collection is unique both in its focus on analytical feminism and in its breadth across the subdisciplines within philosophy.

Out of the Shadows: Contributions of Twentieth-Century ...

“It has killed nearly one million people around the world, infected over 30 million, and remains largely out of control. This was the result of a lack of global preparedness, cooperation, unity and solidarity.” “COVID-19 is casting a dark shadow across the world. But it is also a warning that must spur us to action,” Guterres said.
