time series and cross-sectional data sets that have repeated observations over time for the same individuals (individuals can be workers, households, firms, industries, regions, or countries).

Panel Data Econometrics - Manuel Arellano - Oxford ...

Panel Data Econometrics Manuel Arellano Abstract. This book reviews some of the main topics in panel data econometrics. It analyses econometric models with non-exogenous explanatory variables, and the problem of distinguishing between dynamic responses and unobserved heterogeneity in panel data models. The book is divided into three parts.

Panel Data Econometrics - Oxford Scholarship

Synopsis. This book, by one of the world's leading experts on dynamic panel data, presents a modern review of some of the main topics in panel data econometrics. The author concentrates on linear models, and emphasizes the roles of heterogeneity and dynamics in panel data modelling. The book combines methods and applications, so will appeal to both the academic and practitioner markets.

Panel Data Econometrics by Manuel Arellano, 2003 | Online ...

Manuel Arellano (born 19 June 1957) is a Spanish economist specialising in econometrics and empirical microeconomics. Together with Stephen Bond, he developed the Arellano–Bond estimator, a widely used GMM estimator for panel data. This estimator is based on the earlier article by Arellano's PhD supervisor, John Denis Sargan, and Alok Bhargava (Bhargava and Sargan, 1983).

Manuel Arellano - Wikipedia

Manuel Arellano. This book presents a modern review of some of the main topics in panel data econometrics. It deals with linear static and dynamic models, and it is aimed at a readership of graduate students and applied researchers. Parts of the book can be used in a graduate course on panel data econometrics, and as a reference source for ...

Manuel Arellano

His research has focused on panel data analysis, micro-econometrics, and labor economics. He is Vice-President of the European Economic Association and a Fellow of the Econometric Society. Prof. Arellano has published widely in *Econometrica*, the *Journal of Econometrics*, *The Economic Journal* and *The Review of Economic Studies*, among others.

Prof. Manuel Arellano Panel data econometrics

In econometrics, the Arellano-Bond estimator is a generalized method of moments estimator used to estimate dynamic models of panel data. It was proposed in 1991 by Manuel Arellano and Stephen Bond, based on the earlier work by Alok Bhargava and John Denis Sargan in 1983, for addressing certain endogeneity problems.
