psychoanalytic basics- paranoia and melancholia At the phallic-oedipal phase of development I have been showing that what is created is a maternal phallus that opposes the father's phallus. The narcissist has a secret phallus by which he opposes the ego ideal of excellence or recognition and can deny his lack of success in the symbolic order.

~~Explaining Delusional Thinking | Psychology Today~~

In The Interpretation of Dreams, the paranoid logic, psychology, and rhetoric of psychoanalysis, which have been the subjects of the preceding chapters, combine in perfect harmony. The work takes the form of a romance, a quest, one that demystifies the object it seeks, then mystifies it in new ways.

~~What's Paranoia and Why Is it Harmful? — Exploring your mind~~

The overall emotional state of a person who is paranoid is a negative one (depressed mood, anxiety, and lowered self-esteem). Paranoia is disorder of mind, not a flaw of character. Paranoid individuals tend to have false ideas about the world and people. Here is a 8 such biases that prevent them being rational:

~~Paranoia (Delusional Disorder): A Definition, Symptoms And ...~~

Paranoid ideation, or paranoia, means that you have beliefs you are being harassed or persecuted. It can also refer to beliefs of general suspiciousness regarding the motives or intent of others. It can also refer to beliefs of general suspiciousness regarding the motives or intent of others.

~~Paranoia (Ideas in Psychoanalysis): David Bell ...~~

Neisser came to shape the fundamental way that psychoanalysis looks at paranoia as a mental condition. He said that it was essentially “ a unique way of interpreting”. A paranoid person feels like everything they see and hear is about them in some way or another. Jacques Lacan took this concept much farther.

~~Freud's theory of paranoid delusion based ... - SpringerLink~~

Paranoia is an instinct or thought process which is believed to be heavily influenced by anxiety or fear, often to the point of delusion and irrationality. Paranoid thinking typically includes persecutory, or beliefs of conspiracy concerning a perceived threat towards oneself (e.g. the American colloquial phrase, "Everyone is out to get me"). Paranoia is distinct from phobias, which also ...

~~Mental Health: Paranoid Personality Disorder~~

This article seeks to reopen a major question raised by the Lacanian nosology of the psychoses, by looking closely at Lacan's formulations of what he never ceased referring to as "paranoia". While almost all classification systems of modern psychiatry, such as the ICD-10 and the DSM-5, have abandoned the specific category of paranoia, Lacan always viewed paranoia as a major category of ...

~~Paranoia—Wikipedia~~

From the psychoanalytic view, there may be at the same time "transitions...to delusions" from ideas of reference: "abortive ideas of reference, in the beginning of their development or, in schizotypal personalities, continuously, may remain subject to the patient's criticism...under adverse circumstances, by minimal economic shifts, however, reality testing may be lost and daydreams of this kind turn into delusions."

~~Ideas in Psychoanalysis: Paranoia by David Bell~~

In this Article. Paranoid personality disorder (PPD) is one of a group of conditions called "Cluster A" personality disorders which involve odd or eccentric ways of thinking. People with PPD also suffer from paranoia, an unrelenting mistrust and suspicion of others, even when there is no reason to be suspicious. This disorder usually begins by...

~~psychoanalysis: psychoanalytic basics—paranoia and ...~~

According to the famous Jacques Lacan, paranoia is a form of psychosis characterized by self-referential delusions where the individual accuses another person, object, or entity of causing their discomfort. This all occurs through a process called projection, a psychological defense mechanism.

~~8 Key Traits of Paranoid Thinkers | Psychology Today~~

Paranoia is the terrifying fear of being hurt. Paranoia is a false accusation pretending to be real. Paranoia is the accuser side of the false or unreal self. The feeling is real but the characters are displaced and substituted. The accused is merely a stand-in for the real person. Paranoia needs an enemy, but can't seem to find the real persecutor. So, anyone will do.

~~The Lacanian Concept of Paranoia: An Historical Perspective~~

If you can get outside of the paranoid ideas, and question whether or not they are true, this is probably paranoid ideas. What to Do if You Have Both Anxiety and Paranoid Ideas. The approach to disempowering and diminishing paranoid ideas that occurs with anxiety is going to be the same as it would be for anxiety alone.

~~Paranoid personality disorder—Wikipedia~~

What causes paranoia, hallucinations and grandiose ideas? The widespread symptoms typically associated with schizophrenia are at least as likely to be triggered by people's environment as their ...

~~Anxiety and Paranoid Ideas—Calm Clinic~~

Paranoid personality disorder (PPD) is a mental illness characterized by paranoid delusions, and a pervasive, long-standing suspiciousness and generalized mistrust of others. People with this personality disorder may be hypersensitive, easily insulted, and habitually relate to the world by vigilant scanning of the environment for clues or suggestions that may validate their fears or biases.
