Through the ethnographic study of a single clinic in this national context, Patient-Centred IVF examines how this particular form of medicine, aiming to empower its patients, co-shapes the experiences, views and decisions of those using these technologies. Gerrits contends that to understand the use of reproductive technologies in practice and the complexity of processes of medicalization, we need to go beyond 'easy assumptions' about the hegemony of biomedicine and the expected impact ...

## **Patient-Centred IVF: Bioethics and Care in a Dutch Clinic ...**

The book Patient-Centred IVF: Bioethics and Care in a Dutch Clinic promises to put patients centre stage, and it certainly does. From the first to the last pages, medical anthropologist Trudie Gerrits carefully builds her analysis of the narratives and lived experiences of patients attending the Radboud Clinic, where Gerrits conducted long-term fieldwork in the Netherlands.

In vitro fertilization (IVF) is a complex series of procedures used to help with fertility or prevent genetic problems and assist with the conception of a child. During IVF, mature eggs are collected (retrieved) from ovaries and fertilized by sperm in a lab. Then the fertilized egg (embryo) or eggs (embryos) are transferred to a uterus.

## **In vitro fertilization (IVF) - Mayo Clinic**

It seems to me that those who did the embryo-destructive research to develop the technique of IVF did so with a lack of respect for the dignity and value of the life of human embryos and that the lack of respect for the dignity of human embryos has continued to be a characteristic of the practice of IVF.

Addressing Patient-Centered Ethical Issues in Health Care: A Case-Based Study Guide . This study guide provides an unfolding approach to 12 cases—9 involving adult patients, 3 involving minors—on various topics in clinical ethics. The presentation of these complex cases mimics the way that they evolve incrementally in the clinical setting: Patient and family narratives are interwoven with skills-based, reflective study questions that encourage critical thinking on the part of ethics ...
