Where To Download Pseudorabies Aujeszky's Disease And Its Eradication Virology Research Progress

Aujeszky's Disease is caused by infection with a herpes virus, Suid herpesvirus 1 (SHV) which multiplies in the nuclei of the cells of the pig to lyse (kill) them, to form syncytia (merge them) or to produce a characteristic intranuclear inclusion body. It can be grown in tissue culture in the laboratory. It is a DNA virus.
