Reckoning with Markets presents the notion that economic thinking cannot escape value judgments at any level and that this understanding has been the dominant view throughout most of history. It shows how, from ancient times, people who thought about economic matters integrated moral reflection into their thinking.

### **Reckoning With Markets: The Role of Moral Reflection in ...**

Reckoning with Markets: Moral Reflection in Economics. Undergraduate economics students begin and end their study of economics with the simple claim that economics is value free. This view, now well over 200 years old, has been challenged by heterodox thinkers in economics, and philosophers and social scientists outside the discipline all along the way.

The staggering death toll of the coronavirus pandemic and the deep dysfunction it has exposed will forever alter American politics. But lost in the flood of daily domestic tragedies is a shift that may prove as consequential as the pandemic itself: the death of the international political order commonly known as “globalization.”
