Using Research Studies in your Essays. Research studies can either be knowledge or evaluation. If you refer to the procedures and findings of a study, this shows knowledge and understanding. If you comment on what the studies shows, and what it supports and challenges about the theory in question, this shows evaluation.

Research Methods. It is possible to save time, and in some cases, money, by identifying any flaws in the procedures designed by the researcher. A pilot study can help the researcher spot any ambiguities (i.e. unusual things) or confusion in the information given to participants or problems with the task devised.
