~~RTCA | Safer Skies Through Collaboration~~

When the equipment installation is required to meet the HIRF requirements in §§ 23.1308, 25.1317, 27.1317, or 29.1317, use RTCA/DO-160F or G. RTCA/DO-160E is also acceptable to meet the HIRF requirements for level B and C systems when using test levels defined in the appropriate regulations as discussed in AC 20-158.

~~Rtca Do 160f Wordpress—dev.babyflix.net~~

RTCA/DO-160 Section 20 has been updated to reflect the requirements of the new FAA rule for High Intensity Radiated Fields testing, also known as HIRF Testing, which is a form of EMC testing applicable to equipment that is subject to extreme electromagnetic environments and/or mission-critical equipment whose failure would be hazardous to human safety.

~~DO 160—Wikipedia~~

DO-160, Environmental Conditions and Test Procedures for Airborne Equipment , published by RTCA (Radio Technical Commission for Aeronautics), is the international standard that defines environmental test conditions and applicable test procedures and criteria for avionic equipment to determine their performance characteristics.

RTCA DO-160. December 6, 2007.

~~Rtca Do 160g Full~~

The list of accredited standards includes RTCA DO-160 for Electromagnetic Compatibility, Lightning, HIRF and Environmental requirements. The purpose of RTCA DO-160 tests is to provide a laboratory means of determining the performance characteristics of airborne equipment for Environmental & Electromagnetic Compatibility conditions, representative of those which may be encountered in airborne operation of equipment.

~~Fundamentals of DO 160F, Section 22: Lightning Induced ...~~

Changes from DO-160E Vibration Testing to DO-160F Vibration Testing Performance test times were reduced from 30 minutes to a minimum of 10 minutes. Robust test equipment operating, not operating requirements were standardized to have equipment not operating during sinusoidal scans and operating during the robust test portion of the test, unless specified otherwise by the applicable equipment ...

RTCA DO-160G provides standard procedures and environmental test criteria for testing airborne equipment for the entire spectrum of aircraft from light general aviation aircraft and helicopters through the "jumbo jets" and SST categories of aircraft. The document includes 26 Sections and three Appendices.

~~RTCA DO-160 EMC Testing—D.L.S. Electronic Systems, Inc.~~

DO-160 is a standard that was published by the industry group Radio Technical Commission for Aeronautics known as RTCA. RTCA is not a government regulation, however the FAA, EASA and others will often cite RTCA/DO-160 as a means of compliance for certification. In fact, it is the de facto standard in aerospace environmental testing.
