The SE 50 professional coffee machine is the perfect solution for locations where low consumption and small space are important. It has a strong, solid stainless steel body, easy to clean, and an always heated brewing unit thanks to the "triple thermoblock" technology: 3 independent boilers for the coffee, water and steam circuits.

Magic will do fine if you put up with Saeco's quirks and maintain it correctly. The machine WILL leak water from the steam nozzle. Some have a flimsy plastic water tank. You must clean the brewhead monthly, and don't leave the machine on for long periods . Flush out the steam wand and disassemble and clean after every use.

What is more, an automatic espresso machine with a grinder, after you press a button, will choose the appropriate amount of coffee and the degree to which it should be ground, however, if you wish, you can choose these settings manually, according to your own preferences. Philips and Saeco machines have ceramic burr grinders which allow you to set the degree of grinding.
