victims - Wikipedia

A serial killer is typically a person who murders three or more people, with the murders taking place over more than a month and including a significant period of time between them. [1] [2] The Federal Bureau of Investigation (FBI) defines serial killing as "a series of two or more murders, committed as separate events, usually, but not always, by one offender acting alone".

List of serial killers in the United States - Wikipedia

Strictly speaking, a serial killer is someone who murders at least two people in separate events that occur at different times. While “serial murder” is not formalized by any legal code, the crimes of serial killers have often been seized on by the media and the public consciousness—especially in cases where there are many victims or the murders are carried out in gruesome fashion.
