Strategic Challenges Americas Global Security

In this second half of the decade, these and related strategic challenges will test the skill, tenacity, and imagination of the current and the next U.S. administration and the American public. How well these challenges are managed then, or mastered, will greatly influence whether future historians look back upon this decade as a dangerous passage toward a more peaceful, globally connected order or as a descending path into an ever more fragmented, violent world. This volume explores seven ...
