The Maternal Newborn Nursing Certification (RNC-MNN) Review Course provides a comprehensive and up-to-date review of maternal newborn nursing care based on the RNC-MNN Exam content outline. Participants receive information that will not only promote certification exam success, but will also enhance clinical nursing practice.

Maternal Newborn Nursing Certification Review Course

Water and sanitation access are known to be related to newborn, child, and maternal health. Our study attempts to quantify these relationships globally using country-level data: How much does improving access to water and sanitation influence infant, child, and maternal mortality? Data for 193 countries were abstracted from global databases (World Bank, WHO, and UNICEF).
