Supporting early mathematical development : practical ...

Children develop math concepts and skills very early in life. From the moment they are born, babies begin to form ideas about math through everyday experiences and, most important, through interactions with trusted adults. Language—how we talk with infants and toddlers about math ideas like more, empty, and full —matters.

Math Talk with Infants and Toddlers | NAEYC

Optimising mathematics learning outcomes in ECE requires using Te Whāriki as a curriculum base (Ministry of Education [MoE] 1996). While this delivers broad expectations that children will grow in familiarity with number and mathematics concepts, it doesn't prescribe actual teacher practice.

Strategies for teachers developing strategies for ...

A useful strategy is to ask if the social interaction and mathematical thinking are developing or stalled. If they are developing, simply observe and leave the children alone. Discuss the experience later with the whole class. Discuss and clarify ideas.
