The History of ReBoot: The First CGI Series - Art in Motion

Its reboot was a reminder of days where phones were simpler and less of a distraction, not constantly disturbing you with emails and app notifications, and not requiring constant battery recharges. It's now ten years since Steve Jobs introduced the iPhone and changed the mobile phone industry forever. After what seems like an age of tight competition over bigger screens and higher specs, a return to a good old classic seemed like a welcomed respite.

The Art of Reboot: Dave Roberts, Gavin Blair, and more ...

The Art of ReBoot is a book written by Dave Roberts, Gavin Blair, Brendan McCarthy, and Scott Lee. They created it just after the fourth season of ReBoot aired. The book is a cronicle of how each character in ReBoot was created, how they were originally designed to look, how they developed into their look at the beginning of the show, and how they changed through the run of the show.
