Writing for general readers and educators alike, Saylan argues that education today has failed to reach its potential in fighting climate change, biodiversity loss, and environmental degradation.

The Failure of Environmental Education by Charles Saylan

Environmental education has failed to bring about the changes in attitude and behavior necessary to stave off the detrimental effects of climate change, biodiversity loss, and environmental degradation that our planet is experiencing at an alarmingly accelerating rate. For decades, scientists have warned of the potentially devastating consequences of climate change, and although it has become a highly politicized issue, serious problems still loom in earth's near future.
