resolution (ODR) from the commercial space to state and local courts.

Online Dispute Resolution Moves From E-Commerce to the ...

Online dispute resolution (ODR) is a branch of dispute resolution which uses technology to facilitate the resolution of disputes between parties. It primarily involves negotiation, mediation or arbitration, or a combination of all three. In this respect it is often seen as being the online equivalent of alternative dispute resolution (ADR). However, ODR can also augment these traditional means ...

Online dispute resolution - Wikipedia

The issue of online dispute resolution is a relatively recent phenomenon. In the early years of the internet, between approximately 1969 and 1992, the conditions for dispute were
