The Medicine Line is the US/Canadian Border. Specifically, the part of the border that runs along the 49th Parallel from the Midwest to the Pacific Ocean. In the frontier days when battles between US troops and Native Americans were common, the tribes would often flee North into British/Canadian territory to rest and recuperate after a fight.

"We look for medicine to be an orderly field of knowledge and procedure. But it is not. It is an imperfect science, an enterprise of constantly changing knowledge, uncertain information, fallible individuals, and at the same time lives on the line. There is science in what we do, yes, but also habit, intuition, and sometimes plain old guessing.
