Autobiographical Introduction

Structure is the fullest record we now have of the new direction Kuhn was taking during the last two decades of his life. The first part of the book consists of essays, philosophical rather than historical in nature, in which Kuhn refines the basic concepts set forth in Structure—paradigm shifts, incommensurability, and the nature of

When Kuhn set forth his thesis of scientific revolutions in 1962 in his famous book titled *The Structure of Scientific Revolutions*, the book was not welcomed by philosophers of science, who expected and demanded a coherent philosophy of language and a linguistic analysis for the Kuhnian thesis. The
