Human memory involves a collection of systems that enable us to remember the past and imagine the future. Films can enhance our understanding of memory by telling us stories about people, illustrating how their present was shaped by their past and how, by watching their stories, we might navigate similar situations in our future.

A new idea gaining momentum among global business leaders is looking at constraints as opportunities, capitalize on them. Achieving this is just three steps away; think global, think cultural and be a global and cultural thinker at the same time. Globally expanding businesses require a wide range of expertise and knowledge that operates under a variety of managers coming from different cultures.

Heritage and Social Media explores how social media reframes our understanding and experience of heritage. Through the idea of 'participatory culture' the book begins to examine how social media can be brought to bear on the encounter with heritage and on the socially produced meanings and values that individuals and communities ascribe to it. To highlight the specific changes produced by ...

The latest memory card format, CFexpress, is not only the fastest storage format out there - it's also one of the cleanest and easiest to understand when it comes to the symbols on each card. Because the format is so new, and cards are so inherently fast, there isn't the same alphabet soup of letters, numbers and hieroglyphics to decipher on CFexpress cards (not yet, at least).
