Unthinkable An Extraordinary Journey Through

Helen Thomson has spent years traveling the world, tracking down incredibly rare brain disorders. In Unthinkable she tells the stories of nine extraordinary people she encountered along the way. From the man who thinks he 's a tiger to the doctor who feels the pain of others just by looking at them to a woman who hears music that 's not there, their experiences illustrate how the brain can shape our lives in unexpected and, in some cases, brilliant and alarming ways.

Amazon.com: Unthinkable: An Extraordinary Journey Through ...

Unthinkable is the rare work which can combine reading pleasure with genuine insight. It has its faults, or at least shortcomings which result from the genre, but it still worth spending an evening reading the book cover to cover. Helen Thomson is a journalist with a degree in neuroscience. As such she chooses to revive the conceit of Oliver Sacks by describing the life of people who have unusual brains which either give them abilities or disabilities compared to most of humanity.
