Well, it's due to a brain chemical called dopamine, which triggers actions if rewards are in sight. Profound! 'Your Money and Your Brain' has a whole lot of such revelations.

Book Review | Your Money and Your Brain | BookJelly

The human brain does not make financial decisions strictly on the basis of monetary gains and losses. Other factors are at work, including surprise, happiness, fear, risk, greed, intuition, emotions and perceptions. Emotions are not the enemy of reason: They are necessary and helpful, provided that investors know how to use them.
