The quote of the year comes from Evan Williams, Twitter co-founder: “I thought once everybody could speak freely and exchange information..."
and ideas, the world is automatically going to be a better place. I was wrong about that.”

2. To which there is only one possible response 3.

The Square and the Tower

However, in The Square and the Tower, Niall Ferguson argues that networks have always been with us, from the structure of the brain to the food chain, from the family tree to freemasonry. Throughout history, hierarchies housed in high towers have claimed to rule, but often real power has resided in the networks in the town square below.

Review: Even on the Internet, What’s Old Is New Again. ... The important lesson of “The Square and the Tower” is that the existence of a network, or network effects for that matter, ...
The Square And The Tower

However, in The Square and the Tower, Niall Ferguson argues that networks have always been with us, from the structure of the brain to the food chain, from the family tree to freemasonry. Throughout history, hierarchies housed in high towers have claimed to rule, but often real power has resided in the networks in the town square below.

Niall Ferguson's 'The Square & the Tower ... - National Review

“The Square and the Tower,” however, also suffers because its main unit of analysis, the social network, is too imprecise a concept to provide a solid foundation from which to launch the book ...

The Square and the Tower by Niall Ferguson: 9780735222939 ...
The twenty-first century has been hailed as the Networked Age.
But in The Square and the Tower Niall Ferguson argues that social networks are nothing new. From the printers and preachers who made the Reformation to the freemasons who led the American Revolution, it was the networkers who disrupted the old order of popes and kings.

The Square and the Tower: Networks and Power, from the ...

The Square and the Tower: Networks, Hierarchies and the Struggle for Global Power is a book by Niall Ferguson, published in 2018 by Penguin Books, where he explains how those at the top of the towers of power have been overstated and the influence of "the social networks down below, in the town squares" has been underestimated. His aim is to highlight and correct this historical oversight.
